

Deep under the Nevada desert, there's a top secret research facility where something has gone seriously wrong. Communications have been severed from within, and anyone sent in to investigate disappears. When Alex Harvey gets the call to check it out, he's immediately suspicious. He knows the Federal authorities aren't giving him the full story, and he's not about to trust them with the lives of his team. What he doesn't know is just how badly he's been lied to. The truth, when he finds it, threatens to destroy them all.
