

An exciting debut from a major new voice in science fiction, this is an action-packed, space opera series you won't want to miss! Rake Weston is the Expanse's most-wanted man but he doesn't remember why. Rake's day doesn't start out all that well – waking up to discover that he died three days ago tends to put a damper on things. Finding out that his replacement body is defective manages to make an already ugly day even worse. Before he can figure out what happened, Rake is forced to flee the revival facility. Skiptracers, law enforcement, military, criminal underworld: everyone is on his tail and eager to claim the price on his head. And yet, for all the hunters seeking the prize, no one can tell him why they want him so badly as he is pursued from the heart of civilization to the lawless frontier. Unable to find a safe place to hide and with allies nearly as untrustworthy as his enemies, Rake knows there is only one way out: retrace his steps to rediscover the very secrets that already cost him his life once!
