

This manual is essentially a condensation of the five-volume work, *Vascular Plants of the Pacific Northwest*, prepared by C. Leo Hitchcock, Arthur Cronquist, Marion Ownbey, and J. W. Thompson, and published serially from 1955 to 1969 by the University of Washington Press as volume 17 of the *University of Washington Publications in Biology*. The sequence of families is the same in the two works except for the transposition of the monocotyledons and dicotyledons; the dicotyledons are in the traditional Englerian sequence, and the monocotyledons are arranged according to the system of Cronquist as presented in "The Evolution and Classification of Flowering Plants." The genera within each family in this manual are alphabetically arranged, as in the earlier work, but for convenience in presentation it has been necessary to number the species.

Coming-to-Know: Recognition and the Complex Plot in Shakespeare (Studies in Shakespeare), The Bliss is in the Stumble, High School Musical 2 Easy Piano Play-Along BK/CD (Easy Piano CD Play-Along (Hal Leonard)), Budget of the United States Government, Appendix: 2009 Department of Health and Human Services, Using Government Publications: Searching by Subjects and Agencies,
