

Combining presentation of new results with in-depth surveys of recent work, this book focuses on representation theory and harmonic analysis on real and  $p$ -adic groups. The papers are based on lectures presented at a conference dedicated to the memory of Larry Corwin and held at Rutgers University in February 1993. The book presents a survey of harmonic analysis on nilpotent homogeneous spaces, results on multiplicity formulas for induced representations, new methods for constructing unitary representations of real reductive groups, and a unified treatment of trace Paley-Wiener theorems for real and  $p$ -adic reductive groups. In the representation theory of the general linear group over  $p$ -adic fields, the book provides a description of Corwin's contributions, a survey of the role of Hecke algebras, and a presentation of the theory of simple types. Other types of reductive  $p$ -adic groups are also discussed. Among the other topics included are the representation theory of discrete rational nilpotent groups, skew-fields associated to quadratic algebras, and finite models for percolation. A timely publication featuring contributions by some of the top researchers in the field, this book offers a perspective not often found in conference proceedings.

Hmm upload this Representation Theory and Analysis on Homogeneous Spaces: A Conference in Memory of Larry Corwin February 5-7, 1993 Rutgers University (Contemporary Mathematics) pdf. Very thank to Archie Smith who share us a downloadable file of Representation Theory and Analysis on Homogeneous Spaces: A Conference in Memory of Larry Corwin February 5-7, 1993 Rutgers University (Contemporary Mathematics) with free. If you want the book, visitor should not post this ebook in hour web, all of file of pdf on tromsnorthnorway.com hosted at therd party site. If you grab the pdf today, you must be save this pdf, because, I dont know while the ebook can be ready on tromsnorthnorway.com. Click download or read now, and Representation Theory and Analysis on Homogeneous Spaces: A Conference in Memory of Larry Corwin February 5-7, 1993 Rutgers University (Contemporary Mathematics) can you get on your computer.
