Not illustrated. 1860 Excerpt: ...bright red midribs, down the centre of each pinnctp, on either side of which is a beautiful silver stripe. The other has just been imported from Peru to the B. G. Kew, (not yet named j it is a Pleris, with a silver edging round each pinncea. Van Houtte, of Ghent, is also sending out a new Gymnogramma, having the upper side of the frond powdered over as with G. Peruviana argyrophilla, but with golden color of G. Chrysophylla. The new dbl. Peaches, introduced by Fortune from China, are becoming vastly cultivated; they are fine things for early forcing as pot plants, particularly the dark variety, and are only surpassed by Van Houttes various-colored one. Amongst seeds of merit are the following: Turners Cottagers Kale is the only vegetable which has withstood the severity of the last winter without hurt--a very useful and delicious vegetable; several good new Peas, Brocoli, Leeks, Cucumbers, &c. Amongst good new flower seeds arc--Salvia binolor, Cyclamen Persicum striatum bicolor, Macrophylla, Spragua urnbellata; Tropseolums, Tom Thumb Scarlet, Tom Thumb Yellow, and Tom Thumb Beauty all good for bedding; Chrysobactrum Hookerii, Callirrha?a digitata, Lychnis Haageana. Rotal GAKrrE.vs, Frogmore, Englaud. Among the new vegetables lately brought into notice, perhaps the following are among those worthy of especial notice; perhaps the greatest improvement of all is in Peas, and that we owe to the untiring perseverence of Dr. Maclean, of Colchester, who has some years in various experimental ways, in the hope of obtaining the desired end, and one of his principlo objects was to reduce the height of our finest marrow, and to get the quality of those that grew 8 feet high, into a dwarf and prolific habit; in the following varieties these qualities are combined,...
